

HOME & BUILDING  
SOLUTIONS

Security. Lifestyle. Technology...

Imagine a home, Your HOME ! Where you have that last detail to choose to make your home perfect. You have thought about and planned even the smallest detail. Including the colour schemes and accessories. Is there something missing? Are you thinking of the Security..... The Unseen danger lurking behind the door !!

## Welcome to a **Worry Free Life!**

Here we will put a new prospective on things. Yes! So that you can relax and have a peaceful Worry free life. We have a vision to personalise a habitat making it more comfortable and user-friendly. Moreover, The unique designs and systems offered are the result of in-depth ergonomic human hand studies, Because we understand that design should not only look good but also be intelligent.

ALBA has been known as an established brand in Indian Security Industry since 1989. During the year 2005 Alba manufacturing division joined hands with European Leading Co. Urmet.

Urmet's home & building solutions division is the natural evolution in the story of Urmet Domus, The leading Italian company specialized in domestic communication. A success story that is supported by these figures: Established since 1937. In the year 1967 Urmet was the first company in the World to design a Video door phone system. Group owning more than 35 company's worldwide & more than 30 million systems installed from Latin America to Far East. Alba Urmet, an Indo-Italian joint venture offers perfect business synergy and brings to you "Innovative Home & Building Video Phone Solutions To Make Your Life Simpler & Safer".

## Entrance Panel

Urmet dedicates great attention to the design and elegance of the external location. While also taking care of the technological aspect, combining products of innovative design with maximum installation simplicity. The product line offers complete modularity, extreme versatility, without forgetting security, guaranteed by robust and reliable designs. Moreover, as part of our philosophy is always customer and installer friendly.

### SINTHISI

- Modular Design.
- Available for 1 to 25 Apartments.
- Unique vertical or horizontal options.
- Anodized Aluminium Construction.
- 1/3" CCD, 420HTV lines- B/w or Colour.
- Backlit Buttons & Name Tags.
- IR Illumination for Night Vision.
- Compatible Monitors: Arco, Signo, Imago, Utopia & Atlantico.

### VDPEC

- Models: VDPEC1, VDPEC3, CLVDPEC1.
- Brushed Stainless Steel Finish.
- Sleek & Elegant Waterproof Design.
- 1/3" CCD, 420HTV lines- B/w or Colour.
- IR Illumination for Night Vision.
- Compatible Monitors: VDPM, F2 & F3.
- Dimensions(W x H x D): (94 x 170 x 50)mm.

### M1

- Models: M1 & M1C.
- Anodized Aluminium & Screw-less Design.
- Water & dust proof Flush Mount.
- Backlit Call Button.
- 1/3" CCD, 420HTV lines- B/w or Colour.
- IR Illumination for Night Vision.
- Compatible Monitors: F2, F3, F7C, F8C & E5C.
- Dimensions(W x H x D): (105 x 172 x 35)mm.

### M4

- Models (Cmos:M4MS & M4CMS) (1/3"CCD:M41 & M41C).
- Surface Mount Plastic Design.
- IR Illumination for Night Vision.
- Compatible Monitors: VDPM,F2, F3, F7C & E5C.
- Dimensions(W x H x D): (97 x 142 x 51)mm.

### M9

- Models: M9 & M9C.
- Aluminium Alloy, Vandal Resistant.
- Screw-less Sleek Design.
- 90° Wide angle Pin Hole Lens.
- 1/3" CCD, 420HTV lines- B/w or Colour.
- Camouflaged IR Illumination for Night Vision.
- Compatible Monitors: F2, F3, F7C, F8C & E5C.
- Dimensions(W x H x D): (52 x 140 x 30)mm.

### M10

- Available for 4 to 32 Apartments.
- Aluminium Extruded Design.
- Backlit Name Tags.
- 1/3" CCD, 420HTV lines- B/w or Colour.
- IR Illumination for Night Vision.
- Compatible Monitors: F2, F3, F7C, F8C & E5C.
- Dimensions(W x H x D): (125 x 250 x 70)mm.

## Apartment Stations

The range of Urmet Video door phones is now one of the most complete on the market. With original characteristics in terms of both appearance and technology. With a view to increasingly strong integration with digital systems, expanding up to building communication formats, Urmet products offer ideal solutions for any kind of installation and any environment. With a common denominator that goes beyond appearance and technology, wrapped up in a single word: Simplicity!

### → IMAGO

- 1707/1(4" Colour Hands-free LCD Monitor with OSD).
- Plug & Play bracket design.
- Red, Green LED Door Open indication.
- Backlit 4 Aux. buttons.
- Full Duplex Audio.
- Joystick control for Brightness, Colour, Volume.
- Compatible Panels: SINTHISI.
- Dimensions(W x H x D): (220 x 124 x 38)mm.

### → SIGNO

- 1740/1( 4.5" B/w. CRT Monitor) / 1740/40 (4" Colour LCD ).
- Plug & Play bracket design.
- Backlit 3 Aux. buttons.
- Full Duplex Audio.
- Adjustable Volume with Mute feature.
- Compatible Panels: SINTHISI.
- Dimensions(W x H x D): (205 x 225 x 50)mm.

### → F2

- F2 (4" B/w. CRT Monitor) / F2C (3.5" Colour LCD).
- Built in Auto Switcher for 2 entry.
- Choice of 14 melody ring tones.
- Built in SMPS power supply.
- Optional Image Memory Module.
- Compatible Panels: VDPEC, M1, M4, M9, M10.
- Dimensions(W x H x D): (192 x 210 x 73)mm.

### → F3

- F3 (4" B/w. CRT Hands-free Monitor) / F3C (3.5" Colour LCD).
- Built in Auto Switcher for 2 entry.
- Fashionable and simple surface mount design.
- Full Moon shaped buttons.
- Compatible Panels: VDPEC, M1, M4, M9, M10.
- Dimensions(W x H x D): (192 x 210 x 49)mm.

### → F7C

- 4.2" Colour LCD Hands-free Monitor.
- Built in Auto Switcher for 2 entry.
- Sleek surface mount design.
- Crystal Clear Picture with Crisp Audio.
- Compatible Panels: M1C, M4C, M9C & M10C.
- Dimensions(W x H x D): (135 x 200 x 35)mm.

### → F8C

- 5" Colour LCD Hands-free Monitor.
- Built in Auto Switcher for 2 entry.
- Fashionable and simple surface mount design.
- High resolution picture and duplex audio.
- Compatible Panels: M1C, M9C & M10C.
- Dimensions(W x H x D): (245 x 162 x 33)mm.

# Integrated Systems

An Expanding Universe of Solutions....

.....So think big!! But we mean really big, because the System are the latest item to emerge from Urmet Domus' lengthy experience in the Digital-Dial Systems field. The Systems offer the most advanced solution for house entryphone equipment, including extended, with hands-free entryphones, traditional handsets and combined models. Moreover the systems will never reply with an engaged tone, which is typical of other systems, because it has multiple voice line capability for simultaneous conversations from the main call stations and it is even possible to hold further conversations from secondary call stations. The IP based systems offer unlimited video conferencing features with Home Automation Solutions.

## Digivoice - The Digital System with trusted performance

- Up to 3.5 km of distance and extension.
- Up to 3000 users.
- Up to 5 concierge switchboards.
- Up to 390 entrances.
- Possibility of door opening code for every user.
- Only 9 wires + coax for all the system.
- Possibility of intercom using the 1138/18 housephone... and much more.

## Ipervoice - iP Based Building Automation System

Ipervoice has no limits in terms of:

- Extension and distance (by using optical fibres).
- Riser columns.
- Number of switchboards.
- Number of users.
- Number of conversations at the same time - no busy lines: a great feature for multiple building compounds with several entrance door.

The numbers of each building is further proof of how remarkable the new Ipervoice system is:

- Distance up to 900 meters from each building riser.
- 1080 users in each building.
- Up to 16 intercom devices in each apartment.

## AH8000 - Digital Smart Home System

- REAL ESTATE DEVELOPER - Smart homes constitute a key selling point, which may generate high values and thus enhance overall competitive ability.
- INSTALLER - Easy wiring, low costs and convenient installation with the adoption of wideband network and plug-and-play products.
- HOMEOWNER - Quality life characterized by comfort, safety and convenience.
- PROPERTY MANAGEMENT COMPANY - Low labor & operating costs and diverse added-value services.

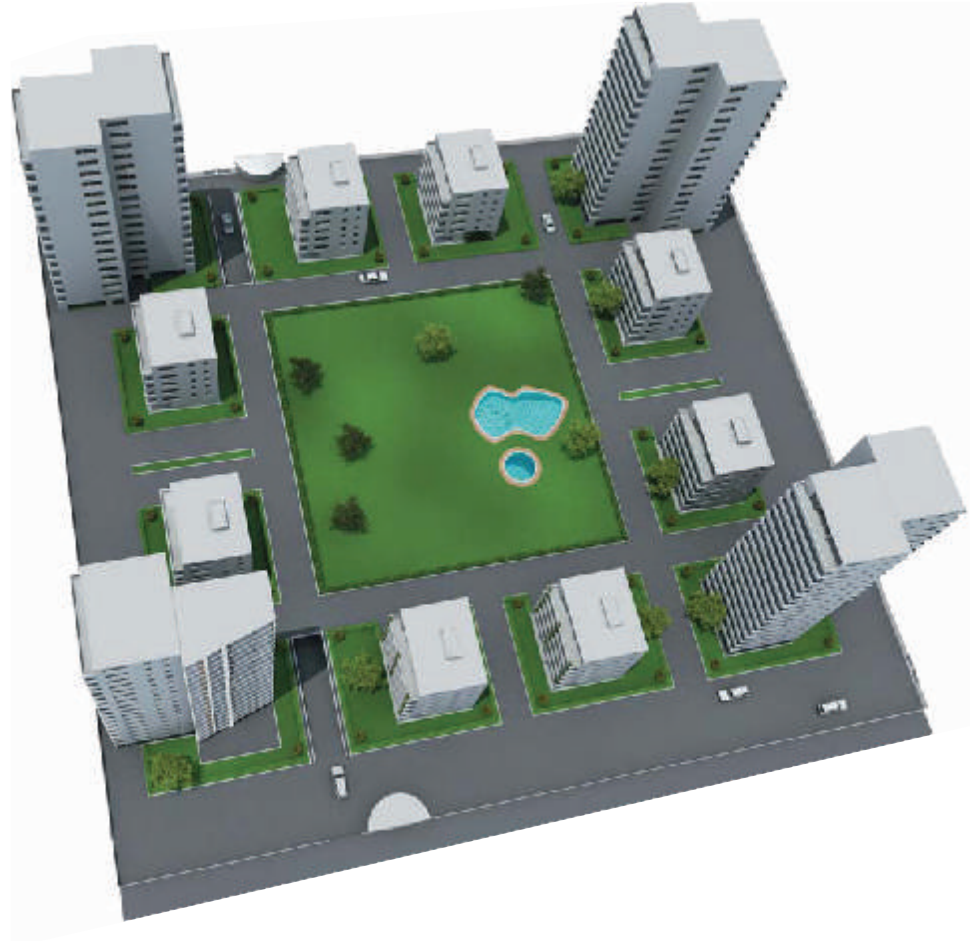

## AH6000 - Digital Cat 5 Based System

- Up to 20,16,000 Apartment.(500 {building}x9x112x4)
- Up to 9R isersp erb uilding.
- Upto15P rimarye ntrys tations.
- Sum of Secondary Entry Stations & 8 External Cameras per Network Controller.
- Up to 4 Indoor phones per apartment.
- Up to 1 Door camera per indoor phone.

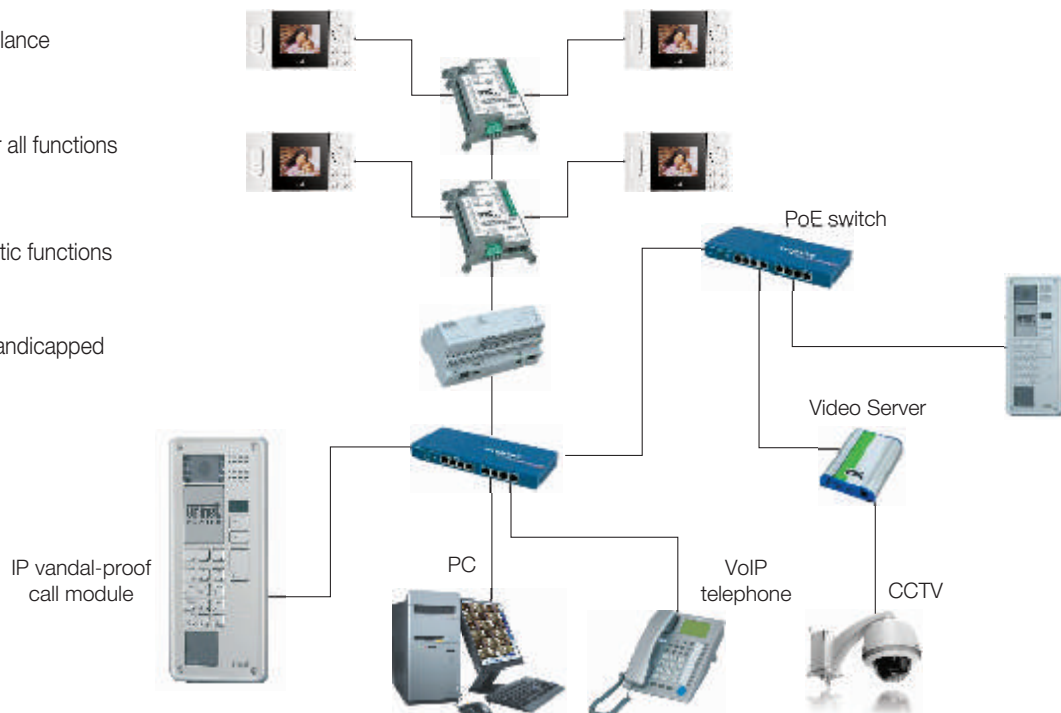

# BUILDING AUTOMATION

IPerVoice is the first digital, all-CAT5 system, with IP-compatible external wiring and dedicated riser protocol. With unlimited extension and number of riser columns, IPerVoice is the ideal system for simplifying installation in residential compounds with a high number of users. Needs may also extremely various in such large systems, and IPerVoice has all the answers. Extremely versatile, it manages integrated access control, technological systems (CCTV, intrusion alarms, fire alarms) and many other functions, all from the video door phone system. IPerVoice: Urmet research and innovation brings you a solution just waiting to be discovered.

-  Optical-Fibre-Ready
-  Switchboard and IP stations
-  Voice messages for operations in progress
-  Absence indication and audio/video message recording
-  Door open detection
-  Duress alarm
-  Access control with evolved functions
-  Lift monitor
-  Intrusion alarm
-  Video surveillance
-  Once key for all functions
-  Self-diagnostic functions
-  Integrated handicapped user help

MOBILE CONTROL

HOME AUTOMATION

MP3/MP4 PLAYER

WIRELESS OPERATION

REMOTE SURVEILLANCE

AH8000 DIGITAL SMART HOME SYSTEM, based on TCP/IP technology, boasts a variety of functions. It ensure not only comfortable and secure living environment, but it will also open the door to intelligent digital living.

- 

Visitor Identification: Support Video intercom between Primary Entry Terminal and Indoor Terminal to identify visitor.
- 

Scene Control: A variety of user-defined scene modes to cater for different occasions simply with a single click. When enjoying dinner. Dining Mode helps create sweet atmosphere with soft light and beautiful music.
